## PROFESSIONAL SUMMARY

Full Stack Developer with experience building and deploying web applications using React, Node.js, and PostgreSQL. Built and deployed applications featuring authentication, API integrations, database-driven workflows, and cloud deployment. Strong foundation in Java, DSA, OOP, and software engineering fundamentals.

## EDUCATION

P.A. College of Engineering, Mangaluru

2022 – 2026

Bachelor of Engineering in Computer Science & Engineering

CGPA: 8.38 / 10

## INTERNSHIP EXPERIENCE

Varishtha Infotech Services Pvt. Ltd.

RPA Intern

Dec 2025 – May 2026

- Developed automation workflows using UiPath.
- Processed structured CSV and Excel data.
- Implemented validation and exception handling mechanisms.

GD EduTech

Software Developer Intern

Jul 2025 – Sep 2025

- Developed an AI-powered digital marketing web platform enabling content generation, SEO keyword analysis, and campaign automation.
- Integrated REST APIs for frontend-backend communication.
- Built and deployed a personal portfolio website.
- Collaborated on feature implementation and testing.

## PROJECTS

**CodeNexus - Peer-to-Peer Learning Platform (React, Node.js, PostgreSQL, Supabase, Resend)**

- Built a full-stack peer-learning platform currently used by 200+ students to improve DSA consistency and technical engagement.
- Integrated LeetCode GraphQL APIs to verify challenge completion through custom business logic based on recent submissions and challenge timelines.
- Implemented RBAC, XP-based gamification, leaderboards, interview experience sharing, and curated resource-sharing features.
- Designed relational database structures using PostgreSQL for users, challenges, rankings, heatmaps, and activity tracking.
- Implemented institution-only authentication by validating college email domains during registration.
- Deployed and maintained the application using modern cloud infrastructure.

**Minara – Masjid Management & Community Platform (React Native, Firebase, TypeScript)**

- Contributed to a production application deployed on Google Play Store and Apple App Store.
- Integrated Google Vision API and Firebase Cloud Functions for OCR-based payment verification workflows.
- Implemented validation logic for transaction amount and UPI mismatch detection.
- Developed responsive Admin and Super Admin dashboards that dynamically display and manage data generated by the mobile application.

**Delearner – AI Code Review Platform (React, Gemini API)**

- Built an AI-assisted code review platform capable of analyzing code quality and optimization opportunities.
- Implemented automated test-case generation and DSA solution validation.
- Added complexity analysis and execution profiling visualizations.
- Built an API rotation system that automatically switches between AI providers when usage limits are reached.

**Automated Payroll System | UiPath, Excel Automation**

- Automated employee salary calculation by extracting attendance (check-in/out) from CSV files.
- Fetches basic salary + allowances and computed daily pay based on working hours.
- Generated a consolidated monthly salary sheet using Excel Process Scope for reliability.
- Reduced manual processing and eliminated calculation errors.

## LEADERSHIP AND ACHIEVEMENTS

- Co-Founder – CodeNexus:** led a collaborative tech learning initiative and mentored peers in problem-solving, projects, and technologies;
- WebLead - EmbedClub:** Contributed to refactoring the EmbedClub website, improving maintainability and user experience.
- Achievements:** Solved 250+ coding problems across TUF, LeetCode, and GeeksforGeeks, Winner – KAUSHAAL '25 Project Presentation.

## SKILLS, CERTIFICATIONS AND LANGUAGES

- Programming Languages:** Java, JavaScript, C#
- Frontend:** React, HTML, CSS, Tailwind CSS
- Backend:** Node.js, Express.js
- Databases:** PostgreSQL, MySQL, MongoDB
- Cloud & Tools:** Supabase, Firebase, Vercel, Render, Git, GitHub, Postman, Docker (Basics), UiPath
- Certifications:** UiPath Academy – Automation Developer Professional Training, CS50x – Harvard University, GFG -160 Days of Code
- Languages:** English (Fluent), Hindi (Fluent), Kannada (Fluent), Malayalam (Native)
